

chinas exchange rate system pdf

In order to tame economic instability, China fixed its exchange rate in 1995 at slightly more than 8 yuan to the United States dollar and maintained that peg until July 2005, when it made a move toward a liberalisation of its currency policy by introducing a narrow trading band. Over the past decade, the government has gradually allowed the trading band to widen, starting at +/-0.3% and finally reaching +/-2% by March 2014.
