classification of living and pdf

CLASSIFICATION helps us to impose order and a general plan on the diversity of living things. Scientists have always tried to organize and classify the objects, including living organisms, around them.

Unit 1 Characteristics and classification of living organisms

Biology is the study of life and living organisms. All living organisms are composed of one or more cells. Organisms grow by increasing the size and/or number of their cells. The number of species of living organisms which have been discovered runs into millions, so a system of classification is essential.

Presented by Dr. Jeya Kennedy 2014 - NUST

classification (i.e. Kingdom), and nest within the next largest classification (i.e. Domain). MATERIALS 8 nested boxes Labels for each level of classification Labels for the levels of classification for a human Tape PROCEDURE 1. As a class, determine the order of classification using the labels 2.
