

co ordination in artificial pdf

In the framework of FES-assisted rehabilitation and reeducation, we addressed in this chapter the problem of the interaction between artificial and natural systems co-existing within patient's body.

Functional Rehabilitation: Coordination of Artificial and

This monograph provides a comprehensive survey of the different approaches to coordination in societies of artificial and human agents. Setting out from a critical assessment of the state of the art, the author develops a method of structuring multi-agent applications with a mechanism called structural cooperation.
