College Algebra. Graphs of Linear Functions. Search for: Graph linear functions. In Linear Functions, we saw that that the graph of a linear function is a straight line. We were also able to see the points of the function as well as the initial value from a graph. By graphing two functions, then, we can more easily compare their characteristics.

Graph linear functions | College Algebra - Lumen Learning

Basic Algebra 0.1 The Laws of Algebra Terminology and Notation. In this section we review the notations

used in algebra. Some are peculiar to this book. For example the notation $A:=B$ indicates that the equality holds by definition of the notations involved. Two other notations which will become important when we solve equations are \Rightarrow and $()$.
