Acupuncture is a form of alternative medicine in which thin needles are inserted into the body. It is a key component of traditional Chinese medicine (TCM). As such, acupuncture is considered a pseudoscience as the theories and practices of TCM are not based upon modern scientific knowledge. There are a diverse range of acupuncture theories based on different philosophies, and techniques vary ...

That's it. The color change shows that a blast occurred. The purpose? One stated goal is to monitor soldiers. The problem is that they may survive the immediate blast event, but suffer delayed brain damage -- called traumatic brain injury (TBI). The blast detector described here could document the blast, thus serving as a warning that the soldier needs medical attention for a condition that ...
