compass points a practical pdf

PRACTICAL BLOCK “ COMPASS BASICS Compass Basics Introduction The first compass was, no doubt, a magnetised ore-bearing rock or stone, that when suspended, would always point the same way. No one knows who first discovered the compass; the Chinese understood its use 3,000 years before Europeans learnt to travel without using the sun or the stars.

PRACTICAL BLOCK “ COMPASS BASICS

Compass Points: North, South, East, and West An Exercise in Understanding Preferences in Group Work Developed in the field by educators. Purpose Similar to the Myers-Briggs Personality Inventory, this exercise uses a set of preferences which relate not to individual but to group behaviors, helping us to understand how preferences affect our group work.

Compass Points: North, South, East, and West

Preparation “ Setup chart paper on each of four walls designating the four points of the compass. Label them: North (Acting), East (Big Picture), South (Caring), and West (Details). Place a second blank piece of chart paper adjacent to each. Bring sufficient copies of the Compass Points Activity Worksheet for all participants.

This can be used as a starter activity to introduce direction and compass points. My class is a SEN class so is quite basic but could be easily adapted to suit. From showing this pp, I take them outside to use the compass points to describe direction....

Intro to direction and using compass points by sstokes26

working with a compass is that magnetic north is NOT true north (the North Pole). Since maps are oriented towards true north, you’ll find life much simpler if the N on your compass points to true north when you box your needle (have the red arrow within the red outline “the orienting arrow).

How to Use a Compass - American Hiking Society

around”, making the original phrasing redundant.

Compass Practice Test - Online Math Tutorials

2. Hold the compass in position on the map, turn the dial so the meridian lines of the compass are exactly parallel with any meridian (North-South) line on the map, and the letter “N” on top of the dial is toward North on the map. Remove the compass from the map. These two steps set your compass for the degree reading to your destination.
