A Theory of Consciousness Giorgio Marchetti University of Urbino According to William James's theory of mind (1890), our conscious mental life flows continuously like a stream in which "the transition between the thought of one object and the thought of another

A Theory of Consciousness

The truth is, the subject of consciousness brings our mind so quickly into contact with the unbearably depressing issue of the human condition that "consciousness" has become synonymous with "indeed code for " the problem of the human condition. Indeed, in his book Complexity, the science writer Roger Lewin actually described the great difficulty we have had of trying to "illuminate ...
