The presence of same-sex sexual behaviour was not scientifically reported on a large scale until recent times. Homosexual behaviour does occur in the animal kingdom outside humans, especially in social species, particularly in marine birds and mammals, monkeys, and the great apes. As of 1999, the scientific literature contained reports of homosexual behavior in at least 471 wild species.

Non-reproductive sexual behavior in animals - Wikipedia

Zoophilia is a paraphilia involving a sexual fixation on non-human animals. Bestiality is cross-species sexual activity between human and non-human animals. The terms are often used interchangeably, but some researchers make a distinction between the attraction (zoophilia) and the act (bestiality).

Charles Darwin was born in 1809, seven years after his grandfather Erasmus had died. Charles grew up during a conservative period in British and American society, shortly after the Napoleonic Wars.

Understanding Evolution: History, Theory, Evidence, and

1. Introduction. Food and nutrition security is a global challenge, and a prerequisite for a healthy and peaceful society. Food security exists when all people, at all times, have physical, social and economic access to sufficient, safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life.
