1. Under regulations in effect until 1987, investigators who met the standard for disqualification (repeated or deliberate failure to comply with applicable requirements) could potentially avoid disqualification and continue to be eligible to receive investigational products if they could provide FDA with adequate assurances of future compliance with requirements applicable to the use of ...

We show, via a massive (N = 689,003) experiment on Facebook, that emotional states can be transferred to others via emotional contagion, leading people to experience the same emotions without their awareness. We provide experimental evidence that emotional contagion occurs without direct interaction ...

Experimental evidence of massive-scale emotional contagion
