The social construction of gender is a notion in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles, and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex.. Some supporters of this idea argue that the differences in behavior between men and women ...

Coming out: many gay, lesbian and bisexual people go through a "coming out" experience at some point in their lives. Psychologists often say this process includes several stages "in which there is an awareness of being different from peers ('sensitization'), and in which people start to question their sexual identity ('identity confusion').
