Shapiro was nevertheless able, through an adjunct position at Columbia University, to play a modest, yet integral role ... of human genetics and the related study of race and racial mixture, all of which were well-aired topics in Hooton's lectures. With the probable exception of the pioneering

### **Harry L. Shapiro - National Academy of Sciences**

In chemistry, a racemic mixture, or racemate, is one that has equal amounts of left- and right-handed enantiomers of a chiral molecule. The first known racemic mixture was racemic acid, which Louis Pasteur found to be a mixture of the two enantiomeric isomers of tartaric acid. A sample with only a single enantiomer is an enantiomerically pure or enantiopure compound.

Race and racial mixture have played a significant role in the politics of many Latin American countries. In most countries, for example Mexico, Dominican Republic, and Panama, a majority of the population can be described as biracial or multiracial (depending on the country). In Mexico, over 80% of the population is mestizo in some degree or another.
