In short, it means that, the moment that light leaves, darkness returns. In this respect, darkness has the same

speed as light . However, in some instances, darkness actually moves faster than light.

How is The Speed of Darkness Faster Than The Speed of Light?

The Speed of Darkness has a fabulous plot about one man's dream to exceed the speed of light and how he plans to make this dream become a reality. Along the way, there's a masterful presentation of science history, particularly in the quantum mechanics and quantum physics realms.

Of course you'd be here for me as I'm probed, become a job for physicians and not metaphysicians. I've also slept with men of all colors, for the 1980s was a time for us to live at the speed of darkness: AIDS as God's hatred for us praised in pulpits; fires eating papers and photographs of wayward children so that they became bachelors and maiden aunts; Reagan as the human tuning fork about ...

The book The Speed of Darkness by Catherine Fisher is a boom I would recommend only to a select audience who enjoys complex sci-fi story filled with strange creatures and time travel. It was a disappointing end to this series, with an amazing start introducing the characters with mystery allowing shocking and creative reveals.
