Beyond the Year 2050. This report describes how the global religious landscape would change if current demographic trends continue. With each passing year, however, there is a chance that unforeseen events – war, famine, disease, technological innovation, political upheaval, etc. – will alter the size of one religious group or another.

The Future of World Religions: Population Growth

In demographics, the world population is the total number of humans currently living, and was estimated to have reached 7.7 billion people as of November 2018. It took over 200,000 years of human history for the world's population to reach 1 billion; and only 200 years more to reach 7 billion.. World population has experienced continuous growth since the end of the Great Famine of 1315–17 ...

World population - Wikipedia
